Star Wars: The Ultimate Action Figure Collection

Synopsis

Here at last is the complete and definitive collection of the more than 2,500 Star Wars® action figures produced over the last 35 years. Fans and collectors can finally trace the evolution of each character in toy form from the time of their first appearance through the designs of today, with pages of amazing and inventive variations crafted to tell the stories of Luke Skywalker, Darth Maul, and literally hundreds more. Compiled by Stephen J. Sansweet, owner of the world's largest private collection of Star Wars memorabilia, the book also showcases and details the rare, popular, forgotten, and beloved figures coveted by fans the world over, drawing figures from the feature film, video game, and cartoon realms of the vast Star Wars universe.

Book Information

Paperback: 352 pages

Publisher: Chronicle Books (November 28, 2012)

Customer Reviews

The very first review I ever wrote for .com was for this book's predecessor: The Star Wars Action Figure Archive. I liked the original quite a bit, so I immediately pre-ordered this book when I first saw it. I have spent the last couple of days carefully reading some parts and am quickly thumbing through others (for now) so I could write this review and let folks know what to expect. All things considered, I think this book is as good as the original in most ways and believe it easily deserves at least 4.5 stars (rounded up to 5 stars since fractions were not an option). Here's why. First, this is a reference book and not a price guide (so, it contains tons of timeless information, but no prices that are quickly outdated). Second, it shows a picture of every figure released as of the time the book was set to the publisher, including most variations and many more obscure figures (with nearly 340

pages containing 6 or more photos each, I have no doubt the author covers at least the 2300 figures mentioned in the intro). On a related note, all of the pictures are nicely sized so you can easily see the detail for each figure. For example, there are 54 Darth Vader figures covered over eight pages, and 89 Luke Skywalker figures covered over 11 pages. Second (at least for the vintage figures and probably for the rest, too, though I can't say for sure because I don't collect those), it shows each figure holding/wearing all of the weapons/accessories it originally came with. Third, it shows at least one still photo for a vast majority of the figures from the movies, TV shows, and/or comics (this is a wonderful way to see how the figures compare to the character they represent).
