Signs From Pets In The Afterlife

Synopsis

Communications from beloved pets are seen by thousands every day. Some messages are given in ways that require an acute awareness and more interpretation as well. From the Heavens above, Signs are given by deceased pets to connect with their families they left behind. Oftentimes, the gifts they share are unseen or are difficult to identify. Learning to speak the Language of Spirit requires practice, but once identified, the joy of hearing from your Pet in Spirit can bring great comfort. This book is an ABC's narrative for identifying signs, messages, and signals from the Afterworld. It shares a simple way to look for, and read, communications from Pet's in the Hereafter. For anyone looking to continue their relationship with a beloved Pet in the Afterlife, this book can help you identify their Gifts from Heaven. Love lives forever...and so do our Souls...

Customer Reviews

Really loved my pets, Miss them so much, After reading this book I was convinced that they also loved and miss me, so many signs that they are with me every day.. so many questions answered of the unusual things going around me that I could not figure out, but, now I have answers...You must believe , and accept ... they are with you, and when our time here on earth ends, we will all be together again..

I had to put my 17 year old Yorkie to sleep 2 months ago. Unfortunately, his body was shutting down and I could not let him suffer. I'm lost without Stewie. He's the love of my life. I always believed

in getting signs from the afterlife. I found this book. It is a great read. I am a complete believer that my Stewie is always with me and we will always stay in contact. I've gotten signs almost everyday including dream visitations, hearing him walking around my room and drinking from his water bowl, I felt him lay next to me on my bed, cloud formations of his face, and he sends me cardinals everyday. It's very comforting to know that Stewie is always around me and that I'm able to communicate with him. I know he loves me unconditionally and when I need him or feel really sad, he sends me a sign. I definitely recommend this book to anyone who lost their beloved pet.

Fantastic book! Reminds us that although our pets are not physically present after they cross the Rainbow Bridge, they are ours eternally! Absolutely recommend it with 5 stars!

Great well written book. MUST have for anyone who has lost a pet or might be in that situation one day. I had several strange things happen last year after my dogs 16 and 12 years old passed away within 8 months of each other. I now know they are still here and able to let us know they are happy and still watching over us! We are pretty sure the 16 year old selected our next puppy and made sure she was born and healthy before she left this earth. We did not even start looking for a new puppy for 6 weeks after our dog died and the puppy we selected was born the day our dog died. It's like she wanted to hang on and check on her replacement.

I am suffering from unrelenting heartache since losing my incredible love Corey, a rescued bichon. Corey is the most loving, trusting dog I will ever encounter and I have depended on him to provide steadying influences in my life. My life is missing a huge piece since Corey left me. I needed to be reminded of the variety of ways our loved ones communicate with us from the afterlife. This book did that for me. I found this book inspired but had too much repetition, the meaning of colors from one animal to another. That made me lose some interest in the book. I also think this book is incomplete. I am of firm belief that our most beloved pets, if they have found a meaningful life with us, will find a way to return to us in the form of another pet. I have to believe that this author feels this way as well so I would like to see some chapters on this concept to bring the subject full circle.

Good book if you have loved and lost. It will give you hope and help you to be more aware of subtle things around you.

Interesting view of the afterlife and our pets. I agree that our companions do communicate with us in

the afterlife and have a very good grasp on this practice. Ms Ragan provides basic information. A good beginning book but not much depth

A wonderful and informative book.
