## Customer Reviews

This cookbook is great to have on hand for entertaining. All recipes are for small bite tasting dishes and the accompanying photos are really helpful for what the finished products will look like. There is an unusually broad spectrum of recipe types including Mediterranean, Scandinavian, Asian, Indian, North African, Middle Eastern, and the Americas. The recipes have varying degrees of complexity

which lend to a wide variety of cooking comfort levels. A few recipes have specialized ingredients (example: squid ink) but most recipes have ingredients that are readily accessible at a good grocery store. Types of dishes include dips, bites, and desserts. There are also a few pages dedicated to entertainment planning. I recommend this cookbook to people who like to entertain.

Very complex recipes. Not easy to make. Lots of expensive ingredients to buy.

Those holiday parties I had were amazing. This book is simple and has enough recipes that are simple to put something quick together, and even some really awesome ones to impress people.

Dissapointing blood Nothing earth shattering here. Old ideas rehashed between new covers.

Excellent! What I really like most is that at the end of the book have a list of suppliers that you can find online to get the ingredients that you dont have

I love it too

great book
