I was delighted to learn that Ann Loveless had written a book about my favourite subject, Landscape Art Quilting. I am delighted with this book, after many books and many years of art quilting one might imagine that there is nothing else to learn, wrong, Ann's technique, (which is easy and fun) and her understanding of color has added to my knowledge base and I am enjoying using her technique. I was mostly interested in her because of the 20ft x 5ft panorama quilt on 4 quilts that I found so awesome that is on the front of her book. I love this book.

I love this book! Great photos, great directions. I would recommend this to anyone wanting to learn landscape art quilting!

Love the art quilts in this book! Easy to do, fabulous results! I was fortunate to take a class recently by Ann Loveless and she is so down-to-earth despite her two ARTPrize wins in Grand Rapids, Michigan. What a wonderful deviation from traditional quilt blocks! Give it a try...I think you'll love the results!

I bought the book as I wanted to learn this technique. While I admired her work which takes up pretty much the whole book, I was bothered by her bragging about how many THOUSANDS of quilts she has sold . Really, thousands ? I can see that she explains her techniques well but I think this book was more about her than the technique . Somewhat tempted to return it....

Well written beautiful illustration

Ann Loveless is a Michigan treasure, and her quilting techniques are wonderful and enticing.

Wonderful view into artist process

Is that \$7,777 price for real? You have got to be kidding!
