For many the family dog is way more than just a pet, it's a member of the family. So it's no surprise that special care is given to finding the right food for them. As people become more concerned about the preservatives and additives in their own food, they are also worrying about what their dogs eat. But what about the treats that dogs so love? Well, the Bubba Rose Biscuit Company has created the most delightful and useful cookbook to aid in this matter — "THE ORGANIC DOG BISCUIT COOKBOOK". This fully revised and updated edition offers over 100 tail-wagging recipes. The charming hardcover cookbook is divided into six chapters and includes resources, a recipe index and a sidebar index. In addition, there is an introduction section that details the helpful tools of the trade you'll need to prepare the recipes (simple items

you'll probably already have on hand), as well as substitutions, storage tips, and much more beneficial advice. Here's an example of one of the various chapters. Chapter 1 (Forget-Me-Nots) offers a unique recipe for each month of the year making it a special time for your four-legged fur baby. For instance, while the humans are enjoying Halloween candy your dog can enjoy Pumpkin Bites. The recipes are simple and easy to prepare. Many of the recipes contain only a few ingredients and can be prepared and ready for tasting within an hour. While the main ingredients include such items as oat flour or brown rice flour, most can be found in the specialty/organic aisle of your grocery store. 'Snickerdoodles' was the first recipe I decided to try. After purchasing the oat flour and brown rice flour, I had the other five ingredients (cinnamon, egg, honey, vanilla, and water) already on hand. The recipe was quick and easy to fix. When the treats cooled, I offered a taste to our three English Shepherds. They sniffed, tentatively tasted and then devoured the treats. They love the new treats and I love the fact that they are good for them and contain no additives or preservatives. In fact, the treats look so good you might be tempted to try one yourself. Since they are made with all natural ingredients that you normally cook with, why not? THE ORGANIC DOG BISCUIT COOKBOOK is beautifully designed with 224 pages. There are no color photos of the finished treats, but charming dog illustrations throughout the book. With a handy bookmark attached, you'll never lose your place when making treats for your four-legged babies. This helpful and informative cookbook is a must-have for dog lovers. FTC Full Disclosure - This book was sent to me by the publisher in hopes I would review it. However, receiving the complimentary copy did not influence my review.

I ordered this book to create some fun recipes for my dogs! So far I have made the apple crisp snicker doodle cookies - both of which were a success! The instructions were clear and were easy to follow. I will definitely be trying out more of the recipes in the immediate future!

Nice selection of recipes! Far superior to store bought 'treats'. Especially beneficial for Senior dogs, and those with food allergies. Koalabug

The recipes were not basic and seemed to be geared towards pet owners who want to feed their pets fancy meals. I think that the recipes that contained "organic" meat would be very expensive to make. I found a couple of recipes that included ingredients that are known to be toxic to dogs (i.e. nutmeg).

Now I don't have a dog as a pet but my brother and his wife do. Since my sister-in-law loves to bake, I thought I might buy her this book for her birthday. Apparently it was a success. My brother told me that their dog loved the biscuits and couldn't get enough. My sister-in-law was delighted with the challenge of baking dog biscuits. I think this is called a win-win situation. I can certainly recommend this book and I suspect that Jack (their dog) will second my recommendation.

My dog is such a picky eater that is afraid she wasn't getting the proper nutrition. I decided to order this book can try a different route with her. I was pleasantly surprised to see the recipes inside this book. Some of the ingredients I had to go to whole foods to get but the recipes appeared to be well thought out. Also I must make a remark on the design of the book. It is a very beautiful book on the inside and someone did an excellent job designing it. I received prompt delivery of the book and would not hesitate to order from this company again

I have made many of these treats. I usually substitute the flour since the recommended flours can be hard to find and are pricey. I use rye a lot. These are easy to make, most have few ingredients and most of the ingredients are pretty easy to find locally. I use silicone molds and they work perfectly. One batch makes about 30 treats using the silicone mold. All the doggies give these recipes 4 paws up!

I love it or should I say my DOGS love it! Made a batch of cheesy biscuits this weekend and the dogs practically flip for them. There is a wide variety of recipes and they are easy to follow. There is also tons of additional information about ingredients and nutrition for dogs. I will definitely be making more! The book is nicely bound and the pages are printed on heavy paper.
