Momo is hiding in every picture in this book. Can you find him?
The Book & My Thoughts: Find Momo: A Photography Book is so much more than a book full of pretty pictures. Andrew Knapp is a very talented photographer. I share my home with four dogs and eight cats. I know it is not easy to get animals to cooperate when you are taking their picture. Since Momo is a black and white border collie, I was sure that I wouldn't have any problem finding him in any of the pictures. I was wrong. Okay, his hiding place was obvious in some of the photographs, but there were also many where Momo's skill at hiding outdid my ability to find him. I had to cheat and turn to the answer key to find out where he was. Once I spotted him it was obvious, but until then he proved impossible to

find. One day when my eight-year-old grandson came over, he picked up Find Momo and looked through it. For quite a while, he sat and searched through every picture for Momo's hiding place. Sometimes he had to ask for my help, but he was successful at finding the dog by himself many times. He has always liked to find Waldo, and he told me that he enjoyed finding Momo just as much. How You Can Use this Book for Your Fiction Writing: This is a book full of pictures that you can use for writing prompts. I don't want to give Momo's location in any of the pictures away, but I will give you examples of questions you can ask about each snapshot. Why is Momo hiding where he is? Is someone chasing Momo? Does Momo know the location of something he shouldn't? Did Momo discover the identity of a burglar or a murderer? Is Momo hiding because he witnessed a tearful yet joyful moment in the lives of two people?
