Customer Reviews

I've had this book for 15 years and I still use it often... and I have about 200 cookbooks. The recipes are delicious and easy to follow. There are healthier choices as well as decadent ones. The book also outlines which potatoes are best in which recipes - a detail that can make or break how a potato recipe turns out due to the starch content. McNair has a friendly uncomplicated voice in all his books - it feels like you have a kind friend helping you turn out delicious food.

I don't consider a bendable card stock type cover a hardcover like I received. It appeared to be a new book and in excellent condition. But not hard cover!

Most of McNair's stuff is great, but he tends to lean to the exotic. I have a separate potato cookbook

which I generally find more useful.
