As Tuulia and Virpi say, people deserve to eat goodies without feeling crappy afterwards, and now they can; all the recipes are dairy-free, gluten-free, and refined-sugar-free, and many are nut-free and raw as well. These delicious recipes include creamy ice creams, soft serves, and milkshakes; fresh sorbets and popsicles; party fare like ice cream cakes, sauces, and more. Enjoy light, summery treats like Coconut Water Coolers and Apple Avocado Mint Popsicles, or relish more decadent fare like the Dreamy Chocolate Sundae and Mint Chocolate Ice Cream Sandwiches. This book is amazing! I've followed Virpi's blog for years and love the idea behind the vegan ice creams. I'm not a vegan, but I don't eat dairy. These recipes appeal to ANYONE, regardless of their

dietary preferences or allergies. They're also written in a way that you can make easy substitutions if you need/want to. I made the caramel-peanut ice cream cake tonight and used almond butter and cashews instead with great success. My children have bookmarked a number of the popsicles for their own pleasure. The Blueberry Pie Ice Pops, Salty Popcorn Ice Cream, Mango-Coconut Ice Pops, and the Zesty Orange Creamsicles are on my list! The beginning of the book has very useful information on making these without an ice cream maker, which is greatly appreciated as I previously gave mine away because it was causing bad habits :) The recipes are sweetened just enough that you feel satiated but not ever sick or too-full. I also have most of the ingredients on hand for a lot of these which makes it easier than having to load the kids into the car, drive to the store, and find obscure ingredients before losing interest and buying a box of popsicles instead. (As a side note, Trader Joe's sells cans of coconut cream, which alleviates the need to place the full-fat coconut milk in the fridge overnight. Just keep a few of these lying around and you can have ice cream anytime the fancy strikes!!!) I don't eat dairy or refined sugar and these recipes appeal to me SOOO much. The cake I made today took me about ten/fifteen minutes tops, and that was with washing the blender out between batches. This is easy, fun, and a great way to enjoy ice cream without feeling sick or guilty. Thank you for making such a splendid book! This will likely be on my counter all summer long!

This cookbook has significantly improved my family's life. I mean, we eat delicious ice cream every night now and it's not processed junk from the store loaded with sugar. Ice cream dripping down your fingers and chin is like a rite of passage for children, but with our being a health-conscious vegan family, I thought my little cherub would be destined to eat plain old boring yonanas for the rest of her life. The recipes in here are totally unique, yet surprisingly simple and the ingredient lists don't have any exotic, impossible to find items. I got the book 6 days ago and I've made 6 of the recipes and they were all incredible. The picture is of the caramel-peanut ice cream cake. It was AMAZING. However, I did need to freeze it longer than the recommended 3 hours to get the middle solid. We have also made the cinnamon bun ice cream, coconut sundae and dreamy chocolate sundae. So so soooooooo good. BUY THE BOOK!

I simply adore this book! N'ice Cream has a great variation of all kinds of healthy ice cream recipes with different bases, such as banana, cashews, coconut milk, avocado and even sweet potato! I have already tried 5 different recipes and every one of them has been a great success in my family. I especially love the fact that you don't need to have an ice cream maker with these recipes. Five

starts, no doubt about it!

I bought this for my daughter's 13th birthday that is coming up. We are vegans and have major sweet teeth, so this book is perfect. As I tell people all the time, being vegan is not a sacrifice, it's a joy and made even more joyous when it's so easy to whip up plant based, yummy treats such as the ones in this book! The recipes are easier than I thought and I can't wait to try them out. Since my daughter feels that ice cream is a food group, I'm thinking she'll love it ;-)

I just love the instant ice cream recipes! So easy and delicious! Quick dessert for dinners and moments when I need something sweet fast. I really like that the ice creams taste very fresh but not "too healthy". Will definitely try the other recipes as well

I bought this book for my vegan husband as a father's day gift. The recipes are simple and delicious. I was especially thankful that the majority of recipes did not involve overripe bananas! They are easy to use with many commonplace ingredients. This was important to us as we live rurally. Although I bought it to go with a new ice cream maker, there are also recipes included that can be made without that appliance. From the simple to the complex, this has enough recipes to satisfy every plant based "nice" cream eater.

I haven't been able to stop reading this book since it arrived! The recipes are delicious and these women really got it right--the perfect blend between healthy and gorgeous presentation. Take it from someone who has published two gorgeous vegan cookbooks. They even got me excited to make Popsicles again. I'm back on buying molds and a few random ingredients,...oh, and of course another N'ice Cream book for my mom and best friend. Feel free to check out my books too, Taste of Health (.net) Gourmet Vegetarian Recipes. I have several free ones on my website for you to try.

This book has so many good recipes in it. I have been enjoying guilt free desserts out of it at least once a week. It has also increased my confidence in preparing my own versions of n'ice cream desserts.
