Customer Reviews

During our last move, I lost my original copy of this book. There are a number of recipes that we craved and just couldn't find anything similar. I finally gave up and got a new one. Smiling faces and full stomachs now remind us of what we were missing!

Lost my copy in the divorce. Had to replace it. I know it promotes his line on seasonings, but you can always substitute some of these other rub and season mixes. That said, some of these recipes are the down right best!!

I was looking for another Paul Prudhomme cookbook, the followup to "Louisiana Kitchen" (once you make the gumbo you'll never again buy a box of Zataran's). This isn't what I was looking for ("Louisiana Tastes") but certainly makes lunch and dinner simple and easy to make. Equal parts cookbook and promotional material for Chef Paul's Cajun Magic line of premixed seasonings, there's more than a little to recommend here.

bought it for my husband really love it.He loved the new reciepes and the ideas of chef prudomme.I would recommend the book

The book was a replacement for one that was lost when moving. It's a great basic cookbook from a while back. . It's one of his simplest and best.
